Professional Summary

Results-driven Software Developer with 2 years of experience delivering scalable web applications in C#, ASP.NET Core, React.js, and SQL databases.

Proven track record of reducing query execution time by 20%, cutting production defects by 15%, and improving user efficiency by 25%.

Skilled in building RESTful APIs, optimizing performance, and driving business-critical features within Agile teams.

Technical Skills

- **Programming Languages & Frameworks:** C#, ASP.NET Core, ASP.NET MVC, React.js, JavaScript, LINQ, Entity Framework Core
- **Web Technologies & Services:** REST APIs, Microservices, JSON, HTML5, CSS3, Bootstrap
- **Databases:** SQL Server, Stored Procedures, Query Optimization
- **Testing & Quality Assurance:** xUnit, MSTest, Unit Testing, Test-Driven Development (TDD)
- **Tools & Libraries:** EPPlus, CsvHelper, Rotativa, Visual Studio, VS Code
- **Version Control & Collaboration:** Git, GitHub, GitFlow, Agile/Scrum, Jira
- **Cloud & DevOps (Familiarity):** Docker, Continuous Integration/Continuous Deployment (CI/CD)
- **Core Competencies:** Object-Oriented Programming (OOP), Problem-Solving, Debugging, Performance Optimization, Software Development Life Cycle (SDLC)

Professional Experience

Software Developer | Fime India Pvt Ltd | July 2023 – Present

- **Engineered** enterprise-scale web applications using C#, ASP.NET Core, and MVC, increasing process efficiency and reducing manual workloads across multiple departments.
- **Designed and deployed** 10+ RESTful APIs, enabling secure, scalable data exchange between enterprise systems and improving system integration speed by 30%.
- **Developed** responsive React.js front-end features that improved user task completion rates by 25% and enhanced overall user experience.
- **Optimized** SQL Server and PostgreSQL queries, reducing query execution time by 20% and improving application performance during peak usage.
- **Strengthened** software reliability by implementing automated unit testing (xUnit, MSTest), raising code coverage by 30% and cutting production defects by 15%.
- **Collaborated** with cross-functional Agile teams (SAMA, FTS, CIS), consistently delivering business-critical features on time while aligning with client requirements.
- **Applied** SOLID principles and best practices in code reviews, enhancing maintainability and reducing bug resolution time.

Projects

Stock Trading Web Application

ASP.NET Core MVC | Entity Framework Core | PostgreSQL | Finnhub API | xUnit

- Built a **full-stack stock trading platform** with n-layer architecture and real-time market data via Finnhub API.
- Implemented buy/sell functionality with validation and DTOs, enabling reliable order processing for **500+ simulated users**.
- Reduced order latency by **40%** through optimized service layers and dependency injection.
- Achieved **90%+ unit test coverage**, validating trading services and ensuring accuracy in high-volume transactions.

Person & Country Management System

ASP.NET Core MVC | SQL Server | EPPlus | CsvHelper | Rotativa

- Engineered a CRUD-based management system capable of handling **10,000+ records**, with advanced search, filtering, and sorting.
- Automated **bulk import/export** of records using Excel, CSV, and PDF, cutting manual data entry effort by **80%**.
- Applied **service-based architecture with dependency injection**, improving scalability and maintainability.

Education

Bachelor of Engineering (B.E.) – Computer Science and Engineering

Rajiv Gandhi College of Engineering and Research | 2023

Key Achievements

- Reduced database query execution time by **20%** across enterprise applications.
- Increased automated test coverage by **30%**, lowering post-release defects by **15%**.
- Delivered mission-critical enterprise features on time in Agile sprints, ensuring business continuity.
- Built portfolio projects showcasing **real-time API integration** and **large-scale data management**.

Additional Skills

- **Payment Domain:** ISO8583, Payment Workflow, Payment Entities, Specification reading.
